

Qrapa Social Onepager

WHAT WE DO

Qrapa Social aims to turn the use of social media into an avenue for revenue generation for the user. Deconstructing social media platforms and reconstructing them with the user as the central focus. Qrapa social is the biggest platform of its kind that allows social media users to earn from making use of social media; every like, comment, photo or video shared is converted into usable earnings. Personal Data is 100% safe and no greed driven executive decisions.

WHAT WE DO

Qrapa social decentralizes social media, thereby making it transparent and accessible to all. Using Blockchain technology Qrapa ensures that users are rewarded for their contributions through the medium of the tradable QER token.

Qrapa returns control to the user through customizable ad options, allowing the user to craft their own social media Ecosystem.

MARKET

- World population - 7.593 billion
- Internet Users worldwide - 4.021 billion
- Social media users worldwide - 3.196 billion
- Social media yearly Revenue - 51.3 billion USD

Who creates this revenue? The cumulative activity of social media users, posting pictures/videos, commenting, liking posts, viewing ads etc. all contribute to yearly revenue for the big firms.

60% of QER tokens have been assigned for sale during ICO

*Exchange: Our token would be launched on a decentralized exchange and on one of the top 8 centralized exchanges immediately after the close of Token sale

CONCLUSION

With Qrapa social, social media users are rewarded for the data and traffic they generate. We will change the existing paradigm so that social media use will no longer be exploited by large corporations at the expense of individuals creating the data; While giving safekeeping of personal data utmost priority.

With support by millions of people around the world, Qrapa will be the ultimate social media platform.
